

SUV006 MINIATURE AUDIO SURVEILLANCE RECORDER 21

The Miniature Audio Surveillance Recorder is an ultra high-capacity covert digital audio recorder with voice activation, integrated timer and selectable compression options offering up to 426 hours continuous recording.

Features:

- Simple single button operation
- Very small dimensions
- Compression and bit-rate setting options
- 128 MByte - 2Gbyte flash memory capacities
- Up to 426 hours continuous recording
- Recordings saved to PC as standard sound files
- Internal clock for time/date stamping
- 10-bit A/D resolution
- Sample rate selection
- 22kHz, 16kHz, 11kHz, 8kHz, 5.5kHz
- Voice activation system (VAS)
- Endless-loop and single-pass recording options
- High sensitivity integral microphone
- Timer for scheduled recording
- Low power consumption
- USB 1.1

Specifications:

Frequency Response	300HZ – 10kHz
A/D Conversion	10-bit resolution
Sampling Rates (Selectable)	22kHz, 16kHz, 11kHz, 8kHz, 5.5kHz
Signal to Noise Ratio	-64dB
Microphone Sensitivity	7 – 9 Metres (typical range)
Status Indication	LED
Control	Pushbutton
Battery	Type 357 (1.5V)
Power Consumption	5mA (maximum)
Recording Modes	Single-pass and endless-loop
Delayed start once and repeat daily	
Voice activation option	

Recording Capacity (Longest Play Quality Setting)
Modified 2 bit ADPCM, 5.5kHz sample-rate

B21-128 (128Mbyte)	26 hours
B21-256 (256Mbyte)	53 hours
B21-512 (512MByte)	106 hours
B21-1024 (1GByte)	213 hours
B21-2048 (2GByte)	426 hours

Dimensions	40mm x 10mm x 15mm
Weight	8g
