

## EOD039

## HIGH POWERED DISRUPTOR

**NATO STOCK NUMBER:** 1385-99-725-4389

The High Powered Disruptor is designed for the disruption of larger or better protected Improvised Explosive Devices (IEDs). It has been in service with the UK MOD for over 25 years which is a testament to its reliability and effectiveness at disrupting a suspect device without causing the device to detonate.

The High Powered Disruptor may be deployed using an optional lightweight stand or by mounting to a Remotely Operated Vehicle (ROV). Preparation of the disruptor is straightforward and quick to achieve and may be carried out remotely from the target to enhance operator safety. The High Powered Disruptor is constructed from non corroding stainless steel parts. Prior to release each unit is subjected to an over pressure proof test and flaw detection. The High Powered Disruptor is supplied as a complete kit in a valise style holdall which includes pockets to secure all parts.

The kit contains the following items:

- Disruptor Main Body
- Disruptor Rear Body
- Contact Cover
- Water Bottle
- Loading Tool
- Oiling / Polishing Brushes
- Cleaning Brush (1 x wire 1 x Nylon, 1 x small)
- Cleaning Rod and handle
- Screwdrivers

The equipment is operated by bespoke cartridges which are ballistically proven to offer consistent and effective performance. Cartridges are supplied in multiples of 10 packed in an H83 ammunition container complete with internal furniture, pistons and closure caps.

### Technical Data

- Disruptor:** Length 485mm  
Main body diameter 50mm  
Rear body diameter 65mm  
Weight 3.5 kg
- Holdall:** Overall Size 500 x 300 x 200mm  
Overall equipment weight 6.5 kg
